Dear Mark

JTU Pay Claim for academic year 23/24

Wage increases have not kept pace with inflation and now we continue to face significant increases in housing costs, fuel, and heating costs, which impact on the health and well-being of staff who work in the FE sector. These issues must be taken into consideration when assessing and responding to this year's pay claim.

The claim for a pay uplift across all scales this year is to match the inflation rate or at least 6.5%, whichever is the higher.

Yours sincerely

Gareth Lloyd
